

LOCAL NEWS.

ALARM OF FIRE.—The alarm of fire between nine and ten o'clock last night was caused by the partial burning of a small portion of the weather-boarding of the old building on Royal street, between King and Prince, belonging to Mr. Arthur Taylor, and formerly known as the city soup-house. The flames were detected, before they had spread to any extent, by Mr. Duff, who happened to be standing at the intersection of King and Royal streets, and who instantly ran to the scene, and with the assistance of a boy extinguished them by pulling off the ignited planks. The fire department was speedily out, but its services were not required. The fire was the work of an incendiary—a large quantity of candle wax, saturated with coal oil, having been discovered at the base of the flames. Considering the hour, the agreeable temperature, the numbers of people out on the streets or sitting at their windows near the scene, the location, and the position of the building fired, this was one of the boldest attempts at incendiarism on record.

"OH, EVER THUS."—Disappointment is the lot of man and woman. The Lone Star Society, a club of young gentlemen, were to have given a soiree at their hall, in Stewart's building, last night. The room was brilliantly illuminated, and the company—beaux and belles—had arrived, but Cook's band, of Washington, which had been engaged to furnish the music, failed to appear, and so the assemblage, having waited until midnight in expectation of hearing a bugle horn announcing the approach of the band, silently went home, some of them murmuring:

"Oh, ever thus from childhood's hour
I've seen my fondest hopes decay."

Carriage loads of invited guests from Washington arrived late, and their disappointment was, if anything, greater than that of the natives.

FISHTOWN.—Appearance at Fishtown this morning were gloomy enough to satisfy the most ardent renegeanxists, and agents, packers, hucksters, cleaners, b-o-th keepers, and all engaged in operation there looked sufficiently miserable to gladly apply wings to themselves and fly at once into the District of Columbia. The fishing season of 1874, it is now conceded, will be, unless the future receipts prove unexpectantly large, the greatest failure on record—that is, as regards the catch, for, fortunately, prices have ruled high, and those fishermen who have sent any fish to market have made money. Owing to the favorable change in the weather yesterday it was expected that the receipts to-day would be large, but having been affected at least 300,000 herling would be landed at the wharf, and the disappointment was great when that expectation was not realized by 200,000—40,000 comprising the receipts.

STATE TAX BILL.—The new State tax bill, published in yesterday's Gazette simultaneously with the telegram announcing its having received the signature of the Governor, raised a commotion among the merchants, the like of which has been rarely seen. The new law is the topic of general conversation, and, among the class affected by it, of general condemnation. At the meeting of the Commercial Exchange, this morning, the question of calling a meeting to take steps with regard to raising a fund to test the validity of the new law, was informally discussed, and though no definite action was taken, it is by no means improbable that such a meeting will be convened. The measures cast upon the Governor for signing the bill, and upon those members of the Legislature who voted for it, are by no means slight, and animation to the District of Columbia is freely canvassed as a means of escape from the onerous taxation.

POLICE REPORT.—The following cases have been reported at police headquarters since yesterday:

Agnes McCarthy, for disorderly conduct on Peyton street, was fined and discharged.

Henry Carter, colored, for molesting colored girls on their way home from church, on Queen street, was fined and discharged.

Julia Brown, colored, for disorderly conduct on North Lee street, near Princess, was fined and discharged.

Warrants were issued for the arrest of Mollie Warner, colored, implicated in the preceding case, and for Toot Henderson, Dave Markland and Willie James in the same offence for which Henry Carter was punished.

Sam. Wright, a stranger, for disorderly conduct at the house of Lieut. J. L. Smith, was locked up for examination.

Mollie McLagan, committed to the work house yesterday, escaped from that place this morning.

Three lodgers were accommodated at the station house last night.

CANAL NEWS.—As will be seen by reference to the canal commerce in to-day's Gazette, canal boats have again commenced to arrive. The cause of the late detention has been the high water at Big Slack Water, where, even as late as Wednesday, the water was over the banks on the tow path, and which point the boats that are now arriving passed by floating, their mules being unable to traverse the tow path. The whole line of the canal is reported to be in good condition—the high water having occasioned no damage—and a lively trade is expected.

MY DAY.—The temperature to-day has been mild, but though the wind has been from the west, there have been only slight intervals of sunshine. No May balls have been heard of, and it is extremely doubtful whether any of the numerous pretty girls of the city boats of took the trouble to be out of bed at sunrise this morning to try their fortunes by breaking an egg in a tumbler of water as their mothers used to do.

NO LECTURE.—The lecture to have been delivered at Sarepta Hall, last night, by Miss Myrtle de la Houke Boone, a beautiful and accomplished younger sister of the Boone child, who, before the war, were celebrated for their remarkable dramatic representations here and throughout the country, was indefinitely postponed, and the money returned to the few ticket holders present. Lectures, as a general thing, do not prove attractive in Alexandria.

GRANGES.—Addison Borst has been appointed assistant deputy to organize granges in the Northern Neck of Virginia. His address is Passapatany postoffice, King George county, and applications must be sent to him. Not less than nine gentlemen and four ladies, nor more than twenty gentlemen and ten ladies will be required to organize a Grange. The fees—three dollars for the former and fifty cents for the latter—must be collected in advance.

BRIDGE ACROSS THE EASTERN BRANCH.—At a meeting of the Congressional Committee on the District of Columbia yesterday, General Chipman's new bill to build a bridge over the Eastern branch of the Potomac was considered, and the committee agreed to report it favorably, and ask that the Committee on Appropriations insert the necessary appropriation in the miscellaneous appropriation bill.

RELIEF.—The suggestion in yesterday's Gazette in reference to contributions for the Louisiana sufferers by the flood has already been liberally responded to by some of our citizens, and as soon as an amount sufficient to warrant the transmission is received, it will be sent out by Col. Herbert.

HOUSE BROKEN OPEN.—During the absence of the family of Capt. Shirley King from their house on North Royal street, yesterday, some one, who is as yet unknown, entered it by kicking out a panel in the door, and having thoroughly searched it—breaking open drawers and ransacking their contents in their efforts to do so—unbolted the back door and went off. As yet nothing except some few articles of clothing have been missed.

CITY SCHOOL BOARD.—A called meeting of the City School Board will be held to-night, at which, as important business will come up, a full and punctual attendance is very desirable.

DELINQUENT TAXES.—The tax collectors, under an ordinance of the City Council, advertise, in to-day's Gazette, the real estate upon which taxes are delinquent.

LOCAL REVENUES.

No one has yet been found who will agree to take charge of the chain gang at 1.50 a day, during good weather, for when it is raining the gang may die, but never works. A resolution passed the Common Council at its last meeting requesting the Mayor to detail a policeman to take charge of the gang, but before it reached the Board of Aldermen that Board had adjourned.

Of all the Alexandrians who were engaged in the surveys for the Costa Rica Railroad, the only one who remains in that country at present is Mr. George Latham, and he, it is understood, will return next September. Mr. Cornelius Cox, the last one but Mr. Latham, returned on Wednesday last.

Brown and Leonard, the two colored men who were seen with the late Mr. Bennett, whose dead body was found on the A. & W. R. R. some time ago, are now living near Colchester. They had a difficulty a short time since, during which one shot the other through the leg.

It will be seen by reference to the notice of the Secretary of the Alexandria Water Company, published elsewhere in to-day's Gazette that the flow of water will be cut off on Sunday from 2 a. m. to 7 p. m., and they will make arrangements accordingly.

The numerous friends of Coroner Samuel Beach will regret to learn that his health has become so much impaired of late, that serious fears of his recovery are beginning to be entertained.

Mr. T. M. Griffith, of New York, who lately purchased a farm on the Leesburg turnpike, near this city, arrived here yesterday with his family and has taken possession of his new home.

Nothing has yet been done by the congregation of the 2nd Presbyterian Church towards securing the services of a pastor, though the pulpit, it is thought, will be supplied every Sunday.

The Legislature having adjourned yesterday, Mr. L. C. O'Neal, the Delegate from this city, has returned. Several other delegates also arrived here last night and to-day on the way to their respective homes.

Mr. G. H. Phillips, of "top off" Harlow's new buildings, near the intersection of Royal and Cameron streets, this afternoon, with the usual ceremonies.

Col. W. H. Pettis, the officer supervising the improvements to Fort Foote and Washington, was in this city yesterday, making arrangements for the active prosecution of that work.

R. B. Taveener has been designated as mail messenger between Hamilton, Va., and the W. & O. Railroad six times a week each way, at \$74.97 per annum, from May 1, 1874.

The work of improving the side walks on Washington street was commenced this morning.
